January 2009

Dear Sir/ Madam,

The Cross Party Group on Cancer is delighted to support the seventh annual Scotland Against Cancer Conference organised by Cancer Research UK.

Scotland Against Cancer plays an important role in influencing political opinion on cancer policy. We look forward greatly to participating in the conference and to the resulting report and recommendations which will be taken forward by the Cross Party Group on Cancer.

This year's conference will include plenary sessions, as well as discussion groups, offering an opportunity for delegates to share their own experiences and suggestions on key elements of cancer policy. This year, the conference will focus on the publication of *Better Cancer Care: An Action Plan*, reflect on the successes and developments we have seen over the past twelve months, and address some of the challenges for the future.

We hope you will join us at Scotland Against Cancer on Friday 20th March at The Glasgow Royal Concert Hall.

With kind regards,

Malcolm Chisholm MSP

Nanette Milne MSP
